

Key trends that will transform the global shipping industry

Omera Khan

Energy Outlook – Arendalsuka

15 August 2018

"Individual businesses no longer complete as stand-alone entities, but rather as supply chains"

...Key trends are radically re-shaping our supply chains...

As the pace, frequency and unpredictability of geopolitical events accelerates, are organizations doing enough to keep up?

the answer company™
THOMSON REUTERS®

"At a time when significant and rapid changes are impacting organisations the need to coordinate our supply chains has never been greater"

Thankyou
