

NORTEX ONS 2016 GET-TOGETHER, SEPTEMBER 1st 2016, STAVANGER

HOSTED BY THE INTERNATIONAL RESEARCH INSTITUTE OF STAVANGER AND GLOBAL CENTER OF EXPERTISE NODE

The International Research Institute of Stavanger in cooperation with Global Center of Expertise NODE have the pleasure of inviting you to the NorTex ONS 2016 Get-Together. This Workshop for project development is a continuation of discussions launched during OTC 2016 in Houston with focus on big data and extended automation possibilities, and further following up on the 2016 NorTex ONS Breakfast Seminar.

In the areas of data science, primary topics for the workshop are sensors and instrumentation, data storage and communication, and data processing and applications – including big data analytics. Participants will be from the NorTex DSC consortium and collaborators. Each NorTex DSC partner will be presenting an idea as a basis for the development of a joint project proposal. Participants will prior to the workshop receive proposal ideas and be requested to provide feedback on which one they wish to participate in developing.

The goal is that this work shall result in submitted proposals to the Research Council of Norway, RPSEA (Research Partnership to Secure Energy for America) and / or other sources of research funding.

We hope you have the opportunity to join us.

DATE:	TIME:	PLACE:	SEMINAR LANGUAGE:	ADMISSION:
SEPTEMBER 1 st 2016	08:00 – 15:00	INTERNATIONAL RESEARCH INSTITUTE OF STAVANGER	ENGLISH	FREE
