

Global Center of Expertise NODE in cooperation with the International Research Institute of Stavanger has the pleasure of inviting you to the NorTex OTC 2018 Digitalization Workshop. The workshop is a continuation of discussions during OTC 2016 and 2017 in Houston with focus on digitalization and effective interoperability.

Three focus areas will be highlighted and discussed. The goal is to share information about current projects across borders and entities as well as strengthening partnerships and collaboration. We look forward to welcoming you.
