Daniel Levy

Research Manager Australasian E&P, Rystad Energy

Daniel Levy is Rystad Energy's Senior Analyst and Product Manager for E&P research in Australasia.

He holds a Master of Finance and Bachelor of Geology and has worked within Australian E&P across operations and research for the past 10+ years.

Daniel specializes in unconventional resource modelling and Australasian gas markets.

Tore Moe

Country Manager Australia and Indonesia, NORWEP

Tore Moe is an upstream oil and gas professional with 20 years experience spanning operations and general management, business development, technical training and field operations.

He has worked across the entire oil and gas lifecycle, from evaluating opportunities to the design, development and production of hydrocarbons.

Tore has international experience in both developed and developing countries. He is competent with management of joint venture companies and inter-company alliances. Tore holds a Bachelor of Engineering Degree from the University of Salford, England.

Jeanette Roberts

O&G Consultant on Australian E&P market

- Jeanette Roberts has more than 39 years' international experience in the oil and gas industry working with operators, FEED specialists and EPC contractors. Her experience encompasses the entire oil and gas value chain including concept development, FEED, project development, construction and asset support.
- In 2014, she established Jeanette Roberts Consulting to provide strategic and management consulting services. Her consulting practice covers a broad range of industry stakeholders including operators, EPCs, consultants, State and Federal Governments and academic institutions. She has supported a number of Norwegian companies with local market knowledge and expertise, including Norshore and Aibel.
- Ms Roberts was previously Country Manager for Kvaerner. Under her leadership, Kvaerner was involved in all of the LNG projects offshore Australia, including Browse, Scarborough, Ichthys and Gorgon.
