

INVITATION TO PERISCOPE FORUM

The PERISCOPE partnership invites you to join us and other international stakeholders to discuss how the North Sea Region can achieve global leadership in the blue economy, with a special focus on EU programming towards 2030.

Agenda

09.00 – 09.45 Opening session

The forum will kick off with introductory contributions from keynote speakers who will share with you their experiences and visions on the future development of the Blue Growth sector.

10.00 – 10.45 Global Challenges and Blue Sector Competitiveness

Due to global drivers, the wider maritime, marine and offshore economies are exposed to profound challenges. The European Maritime sector needs to strengthen the strategic use and implementation of new (digital) technologies and to have the appropriately skilled and trained workforce. Industry experts and analysts share their views on how to remain competitive and innovative.

11.00 – 11.45 Blue Innovation Ecosystems

How can we, through Smart Specialization of regions, help European companies to capitalise on emerging global opportunities and stay competitive? The session will focus on business support, the development of cross-border innovation ecosystems supported by open innovation platforms and infrastructures, skills development and access to funding.

12.00 – 13.00 Policy Panel Debate

In this moderated session, a Panel will discuss the main topics which have been raised by the speakers. You and other members of the audience can share your views in this open and interactive debate.

13.00 – 14.00 Networking Lunch

Date: 5 November 2019, 09.00 - 14.00

Place: Norway House, Rue Archimede 17, B-1000 Brussels

Register: <http://bit.ly/periscopeforum2019>
